

```
#include<iostream>
using namespace std;
int main()
{
    int n;
    cout<<"Enter the number :";
    cin>>n;
    if(n%2==0)
    {
        cout<<"\n"<<n<<" is even number";
    }
    else{
        cout<<"\n"<<n<<" is odd number";
    }
    return 0;
}
```
